

# DEUS™ Step-Up

The ultra-miniature and lightweight DEUS Step-Up gives self-rescue a leg up.

Self-rescue usually requires unweighting and transferring load. A step-aider is the proven way to do it. The DEUS Step-Up makes it easy.

The DEUS Step-Up is everything you are looking for in a step-aider:

- Lightweight – a mere 113 g
- Tiny – 2.5 cm x 3.8 cm x 13 cm packed
- Big – 2.13 m top to bottom and five steps
- Easy to carry – the Velcro® loop makes it easy to attach to a harness
- Easy to use – the steps hold themselves open

Plus, the carry pouch cannot be lost because it is sewn on.

Use the DEUS Step-Up in these rescue situations:

- To transfer load from a fall-protection lanyard to a DEUS controlled descent system to self-rescue after a fall
- To unweight a harness and prevent suspension trauma after a fall
- Ascending

DEUS™ STEP-UP

Part # DR130

When lives are on the line, trust DEUS Rescue.
